DETAILED ACTION

Receipt is acknowledged of the information disclosure statement filed 01/12/2005. A terminal disclosure was filed 12/17/2004.

The rejection under the judicially created doctrine of obviousness-type double patenting is hereby withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 100-119 are rejected under 35 U.S.C. 102(b) based upon a public use or sale of the invention.

Applicant has provided evidence that Bora-Care batches 1001-1012 clearly anticipate the instantly claimed invention in setting out a short chain polyalkylene glycol having an average molecular weight of between 200 and about 400, at least one short chain alkylene glycol, a glycol soluble boron containing compound and water.
